Human Resource Manager
Cinnamon AI Labs

Ladies and Gentlemen,

I would like to introduce myself as an applicant for the part-time AI talent position at Cinnamon AI Labs, a leading AI solutions start-up in Southeast Asia. I am confident in my competence to perform as a part-time AI researcher at your company thanks to my extensive education and work experience.

During my work experience at Viettel RD (2011) and Duy Tan IRD (2017-now), I had an wide range of responsibilities including problem identification, solution design based on trade-off analysis, prototype construction and stepwise optimization. As a researcher, I was required to have excellent critical thinking skills, in-depth expertise in algorithm design and good programming ability in several popular languages such as Python/C++/Java.

My research ability rooted in my extensive education. I began with a bachelor's degree in computer science from Hanoi University of Science and Technology (2009), then a master's degree in IT convergence engineering from POSTECH (2013) and a Ph.D. in computer science from University of Lorraine (2016). Although my research interest is mainly about problems in data mining, I have good understanding of statistical learning methods as well.

I believe my personality also plays a major role to succeed in this career path. I am an extremely analytical, data-oriented, and open-minded.

I would like to thank you for taking the time to review my application. I look forward to hearing more about Cinnamon AI Labs and the details of the AI researcher position. I feel that my education and experience will ensure my success in this role.

Yours sincerely,

Huu Hiep Nguyen
